On behalf of the IFOJJ, I want to thank everyone for their continued support. As we increase in numbers, we increase in strength. Last month's column boasted a record high with it's new members list.

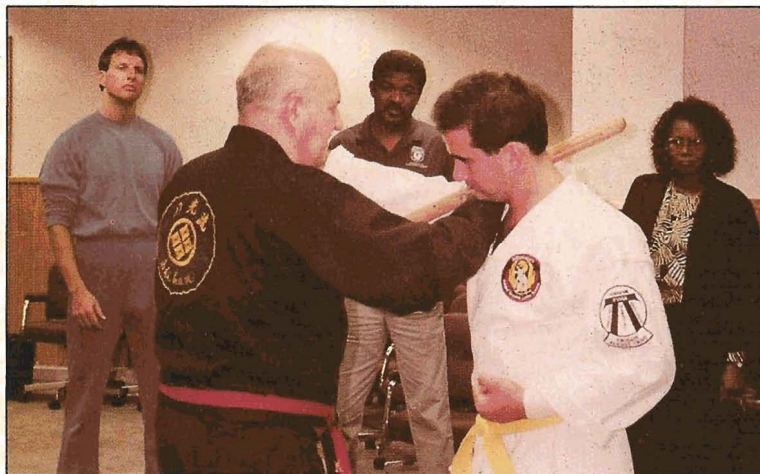

What is most encouraging about this popularity is; it represents the reward of hard work. Our concept is working and everyone is benefiting. More and more schools are meeting through the organization and their instructors, supporting one another in their events.

Many of the items that are listed in this column come from you, the readers and supporters. I mention
